

## WORKSHOPS

We provide custom workshops (in-person or virtual) for school staff, PTA's, corporate workplaces, or other organizations featuring the 10 Principles of Creativity. Led by an experienced facilitator, our workshops provide a unique perspective on how to foster creative confidence and a creative mindset by integrating the 10 Principles as a common language into your organization to create a positive climate and culture.

### FOR EDUCATORS

Educators will explore how to use the 10 Principles as a consistent language in the classroom to foster positive interactions, thoughtful decision-making, and SEL skills. Participants will learn how to integrate the Principles across learning processes and subject areas. Conference workshops can also be arranged.

### FOR FAMILIES

Families will be introduced to the 10 Principles of Creativity through fun, hands-on, visual arts-based activities that build creative confidence. Participants will be provided with a series of take-home activities that they can use to practice the 10 Principles at home to build their creative skills as a family.

### FOR PARENTS AND CAREGIVERS

Parents and caregivers will discover the role creativity and the 10 Principles play in their home life. Participants will learn how to use the language of the Principles to become effective communicators and listeners. We will provide easy and adaptable take-away activities to help nurture creativity and build creative confidence at home.

### FOR CORPORATE WORKPLACES

This customizable series based on the 10 Principles will address a creative approach in the workplace, including culture, leadership, team building, communication skills, and goal setting. These workshops feature tangible examples, actionable discussion, and individual and collaborative activities that support team-building and inter and intra-personal skills.
